

PIZZA SAUCE MIX

OVERVIEW

The growth of pizzas as a convenience food has been outstanding. From the large pizzas purchased for a meal to the mini pizzas served as a savoury snack on that special occasion, there is no doubting the popularity of this tasty dish. BAKELS PIZZA SAUCE MIX is in powdered form, preblended for your convenience. This mix contains 9 individual ingredients carefully balanced to produce a stable tasty sauce. Pizza sauce made from BAKELS PIZZA SAUCE MIX has a rich tomato flavour and a distinctive herb aroma that is even more pronounced during baking. A major advantage of this powdered product is that the pastry cook wishing to introduce pizzas to their range can make up as little or as much sauce as they need. The made-up sauce will keep very well when refrigerated for use as required. Where as tinned sauces occupy large storage space, BAKELS PIZZA SAUCE MIX is very space saving with water added just prior to use. Storage space is also saved since it is unnecessary for the pastry cook to store the individual ingredients required to make up this tasty pizza topping. BAKELS PIZZA SAUCE MIX requires only the addition of cold water to produce a smooth sauce. If necessary, the consistency can be varied by the amount of water added at the mixing stage. The basic recipe of 1 part BAKELS PIZZA SAUCE MIX to 5 parts water produces a sauce, which is very economical to use. Apart from use on pizzas, the sauce can also be used in savoury bread or scones or in any savoury filling requiring a tomato base.

USAGE

Mix 100gms sauce mix to 500gms water and apply to pizza base.

INGREDIENTS

Tomato Powder, Sugar, Salt, Modified Maize Starch (1422), Dried Oreganum, Dried Onion, Dried Chives, Anti Caking Agent (551), Dried Thyme
