

## PETTINA CHOCOLATE CAKE MIX

### OVERVIEW

How often today does one see a chocolate cake which is nothing more than a Madeira batter to which has been added some colour/flavour and maybe a proportion of cocoa powder...A true chocolate cake requires a different recipe altogether. To compensate for the bitterness of the cocoa powder, a higher sugar level is required and this in turn means an increase amount of water is necessary. The acidity of cocoa powder also necessitates a change in the baking powder balance for optimum results...PETTINA CHOCOLATE CAKE MIX is not a compromise, but a well balanced mix that will produce a true characteristic chocolate cake...Quality ingredients are used and the chocolate flavour is provided only by the cocoa powder. No artificial flavours or colours are added. The resultant cakes have a superb chocolate flavour and in addition have good baked volume and improved keeping qualities...PETTINA CHOCOLATE CAKE MIX is simple to prepare – only egg and water need to be added. Alternative recipes and suggestions are included for variety.

### USAGE

Add eggs and water only. Gives a rich moist eating chocolate cake with a delicious chocolate flavour.
